PRODUCTS & FEATURES

SCENTAIR SPLASH

ScentAir Splash™ is a discreet & battery-powered smaller-scale solution used to create zoned impressions in small and micro-spaces. Create scent schedules directly from the device. Easy-change cartridges release mess-free, even fragrance for up to 300 hours.

- Covers up to 500 square feet
- Select scent library with Odor Neutralizing fragrances
- Easy-change cartridges & full warranty
- Available in black or white

SCENTAIR WHISPER MAX

ScentAir Whisper™ MAX with Wi-Fi & Bluetooth is a connected, high-velocity system that delivers discrete fragrance coverage for medium spaces. Ideal for spaces where placement flexibility is a must. Create schedules and control intensity with your phone using the ScentAir app.

- Covers up to 2,000 square feet
- High velocity diffusion fan
- Available in black or white
- Level 1 (1 Cartridge monthly) - Level 2 (2 Cartridges monthly)

SCENTAIR DIRECT & SCENTAIR DIRECT TOWER

ScentAir Direct™ is a flexible system that maximizes scent delivery over medium-sized target areas. Advanced atomization technology releases a fine, invisible mist that can create fragrance zones or an all-over fragrance experience.

- Covers up to 3,000 square feet
- Connected, remote system management available
- ScentAir Direct available in black or white
- Mounting Options: wall, ledge, track lighting, tower

SCENTAIR STREAM

ScentAir Stream™ is an invisible, high-performance system, best for large spaces. Advanced diffusion technology releases fragrance through existing HVAC systems. Customizable scheduling and intensity settings make it easy to tailor scent experiences in any environment.

- Covers up to 31,000 cu. ft. per min. air flow
- Cloud-based system management
- Silent & discreet
- Optional Wifi & Bluetooth capabilities available
