

# Electricity Procurement

## Intelligent Energy Solutions

Create a comprehensive energy procurement strategy with Titan Energy. Utilizing data to control and reduce energy costs, Titan Energy will work with you to cut through the complexity of energy markets with customized, creative energy procurement solutions.

### EXPERT GUIDANCE IN COMPLEX ENERGY MARKETS

In utility areas allowing ratepayers to competitively procure an electricity supplier, Titan Energy helps organizations reduce energy spend and manage exposure to risk. When determining an energy procurement strategy, most companies quickly find balancing internal company initiatives with dynamic energy market trends harder than ever to manage.

### LOCK IN PRICING. LOCK OUT UNCERTAINTY.

*We have a plan that is right for you.*

*Fixed Price* – Locks the rate for electricity including energy capacity and ancillary components. Titan Energy helps determine what components are unlocked or locked to provide stable pricing that fits your needs.

*Market Indexed* – Reflects the wholesale electricity market conditions, providing you with the most direct cost correlation to the hourly electric retail market.

*Block Price* – Fixes a price for a portion of your usage with the balance at a market rate. Titan Energy will match market exposure to client purchasing goals and and limit exposure to the market.

*Renewable and Green Options* – Sun, wind, geothermal, and hydropower sources are all available. We can also coordinate Renewable Energy Certification (REC), Green-e Certification, Green-e Climate Certification, and Carbon off-set verification.

“Titan Energy has been very helpful in providing measurable value to our **two dozen-plus electric and natural gas accounts** at our franchise locations. Over the last **eight years** that I’ve worked with Titan Energy, their energy experience, market knowledge, personalized service and staff have been of real value and have helped guide me in what is a complicated process of energy commodity procurement. Titan Energy has used their **very effective process in bidding my energy commodity accounts to a large number of supply options**. This has taken a huge amount of work off my shoulders.
