

# ACOUSTICAL CEILING RESURFACING FOR INTERIOR ENVIRONMENTS

## New Is Not Always Better

Our innovative, proprietary solutions are specifically designed to safely restore acoustical ceilings and high-impact interior surfaces while avoiding unnecessary landfill waste.

ProCoat's coatings are the ideal solution for any remodel, as they are VOC compliant and provide a second life to your finishes.

**ProCooustic** is a proprietary coating for resurfacing acoustical ceilings and throughout the years has kept **over 1/2 billion sq. ft.** of ceiling tiles out of landfills.

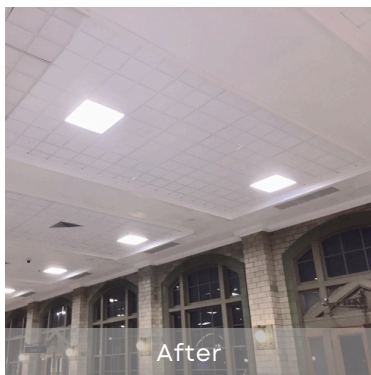

## The ProCooustic Advantage

ProCooustic's exclusive, non-bridging chemistry enables you to easily resurfacing your acoustical tiles, grids, air vents, and speaker plates **without the need to remove them from the grid**, and without worrying about them sticking.

**Resurfacing with ProCooustic gives you a better than new finish, while saving you time and money!**

Before

After

Before

After

Contributes to earning **LEED credit** for existing structures.

Generally **1/2 the cost** of replacing ceiling tiles and painting grids.

Over **1/2 billion sf of tiles** kept out of landfills since 1983.

**Up to 12% whiter & brighter** than new tiles, reducing energy usage.

ProCooustic, in white, **enhances the acoustical properties** by increasing the NRC.

# PROCOAT PRODUCTS AND SOLUTIONS TO PROMOTE YOUR SUSTAINABILITY EFFORTS
