# DiningManager Powered by PlateFul

Connecting menus, MealCard data, and resident needs to create personalized dining.

PlateFul, our intuitive drag-and-drop menu planning tool, combines Dietitian Intelligence with expert guidance to make menu creation easy and stress-free - all while cutting costs, reducing waste, and boosting resident satisfaction. The result? Measurable impact and simpler, smarter dining operations.

VendorSync · **TableSide** · **CareSync** · **Other Integrations**

PlateFul
